

Recommendation

This is to certify that Janeta Akhalkachi , 28.03.1986, has been employed as au pair-person with our family for 1½ years from September 2009 until March 2011 in Copenhagen, Denmark. Please contact the undersigned in case of questions or need for further clarification.

Janeta has been a remarkably loyal, stable and effective employee. She has taken on all her tasks with dedication and enthusiasm. I consider her to be a positive contribution to any workplace.

I would especially like to draw attention to her talent for organizing her time as well as the independent and responsible manner in which she has performed her job. She quickly acquires new skills and seems to enjoy being challenged with new responsibilities. She takes on routine as well as more challenging tasks with an equal amount of enthusiasm and dutifulness.

We have trusted Janeta with our home and our children. We could never have wished for a kinder or more responsible person to let into our home and family. It is noteworthy that Janeta has managed the task as housekeeper, cook and childminder while at the same time taking both English and Danish classes at evening school at a high level. She is ambitious, skillful and very well-organized. She has, during the course of her stay with us, improved her English and Danish skills significantly. Moreover, she is a socially and culturally sensitive person which enables her to engage with all kinds of people with great empathy.

It is therefore with great pleasure that I give Janeta my highest recommendations as I am sure she will be an asset to any workplace, professionally as well as socially.

Sincerely,

Linda Harrison Jensen
